

Environmental Action... Everybody's Business

Are you concerned about what is happening on our planet?

Do you want to take positive environmental action?

And increase your profits?

If there is one day that you and your business should explore how being green can make you money, it is **World Environment Day** on June 5th and **PeopleProfitPlanet** are proud to be able to offer you a unique opportunity to do just this.

This in-depth, interactive and enjoyable workshop will help you positively impact the planet and positively impact your bottom line.

Your reasons to attend:

- **Demonstrate** your environmental commitment
- **Practical tips and techniques** for you to take back to the office, share with your team and implement immediately for lasting success
- Develop **profitable green business opportunities** to build on your existing customer base and create new markets
- **Networking opportunities** to share experiences and learn from other delegates in an informal environment
- Learn how to reduce energy, transport and consumable costs etc resulting in significant **savings for your business and the planet**
- Leave **motivated** to take environmental actions

World Environment Day

The United Nations Environment Programme's "World Environment Day" is on 5th June every year. This years theme is "Melting Ice – A Hot Topic". Further information: www.unep.org/wed/2007
